1. The number of suspected serial offenders may change as we investigate cases. Some offenders are eliminated as serial sexual offenders and others are identified through new CODIS associations and as additional arrest information becomes available.
2. This number only includes cases with CODIS hits or case-to-case associations.
3. Cases may be re-opened at any time if there is additional information or victim contact.

Definitions

CODIS entry – A suspect DNA profile has been entered into the CODIS system.

CODIS hit – A suspect DNA profile matches a known offender DNA profile in CODIS.
