New York, NY 10018

Re: Your Public Records Act Request letter dated May 26, 2016

Dear Ms. [REDACTED]:

I have been asked by the City of Fresno Police Department to respond to your Public Records Act request dated May 26, 2016. The City of Fresno responds as follows:

1. Enclosed is the information requested in Item 1 of your letter.
2. In regard to Item 2 of your letter, the City objects to this request as calling for information that the City of Fresno does not keep the requested record in a format that allows obtaining that information without creating a program to retrieve it. California Bureau of Forensic Services might have that record. Without waiving that objection, enclosed is a list of all sexual kits received by the Fresno Police Department for the period requested.
3. The City of Fresno does not have nor keep the records requested in Item 3 of your letter.
4. Enclosed is a copy of the only policy of the Fresno Police Department that is responsive to the request in Item 4 of your letter.

If you have any questions, please feel free to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Larry A. Donaldson".

LARRY A. DONALDSON
Senior Deputy City Attorney/
Legal Advisor to the Fresno Police Department

TOTAL OF 2787 RECORDS RETURNED.

SEXUAL ASSAULT KIT STORAGE/PROCESSING

*Beginning 1/1/16, when SA kits are received they shall be temporarily stored at **HQ/HQ-Stor/FRZR-1** (Sallyport freezer at HQ). Every Wednesday these kits will be taken to the FRL by CSIB personnel.*

Each Monday, the PECS technician handling SA kit receiving shall email the SA unit supervisor a copy of the PERs for all SA kits booked into evidence the previous week.

All sexual assault (SA) kits shall be kept in storage until they have been analyzed by a competent lab for DNA evidence.

SA kits shall be kept in freezer storage until such time as the contents have been analyzed by a competent lab for DNA evidence, or the SOL have tolled for the related criminal charges for the case in question. If the SA kit has not been analyzed by a competent lab prior to the SOL tolling, the kit may be moved to dry storage until such time as the kit is examined by a competent lab.

Sexual Assault Evidence

- The large white box (main Sexual Assault kit) should be listed as your first item.
- The small white box containing the victim/suspect blood sample should be listed as the second item. If you were not given a small blood vial box, please secure the vials with bubble wrap and then place them in a 5x7 envelope.
- Any bags/boxes of clothing should be listed as separate items in successive order following the above (Item 3, 4, 5, etc.). Make sure your description denotes whether the item is from the Victim or the Suspect.

NOTE: The above listed 3 items SHOULD be listed on the same page. (Make sure to group Suspect and Victim items together. Each item should have a SEPARATE label.)

- These items are then to be placed in a locked container in the evidence refrigerator. The Original Property & Evidence Report (PER) should be locked in the container with the evidence. (If the PER is placed on top of the container, there is a chance it will become wet and damaged due to condensation. If you forget to place in the container, place it in the Slot Locker in Room 15.)
- If you have any blood/urine samples that need to be analyzed at CVT, those samples MUST be listed on a SEPARATE page. The samples are to be labeled and placed in the Blood/Urine Locker (along with the original PER) inside the HQ booking room. DO NOT place sample for CVT in the refrigerator.
- If you were given a photo CD by the hospital, the photo CD should also be booked on a SEPARATE page. It should be booked in a 5x7 or 10x13 envelope and placed in the HQ booking room Slot Locker (along with the original PER). DO NOT book CD's in the refrigerator, as this can damage them.
- The Hospital Medical Report is NOT to be booked or left with the evidence. All medical reports are to be turned into the Records Bureau.

Any questions can be directed to a Property Tech at 621-2675. Messages can be left after hours.

Re: California Public Records Act Request

Dear Ms. [REDACTED]:

This letter is in response to your June 20, 2016 correspondence to the Department of Justice, seeking certain public records. The response is made pursuant to the California Public Records Act, Government Code section 6250 et seq.

1. Any documentation regarding the number of sexual assault evidence kits received by the CBFS [California Bureau of Forensic Services] from the FPD [Fresno Police Department] in the last 10 years, broken down by year, and if documentation is readily available further back in time, we request all such readily-available documentation;

A record search was completed regarding the number of victim sexual assault kits submitted to the Fresno Regional Laboratory from 1/1/2006 to 7/20/2016. This effort included an electronic count by evidence type, as well as the review of dozens of older cases for physical submission records. The result of this effort indicates that 469 victim sexual assault kits were submitted by Fresno Police Department during this time frame.

2. Any documentation regarding the number of sexual assault evidence kits received by CBFS from the FPD that are unprocessed and remain in any storage facilities currently under CBFS's jurisdiction and control;

CA DOJ Fresno Laboratory currently has (as of 7/21/2016):

- 73 victim sexual assault kits from Fresno PD unprocessed (or in progress).
- 38 victim sexual assault kits from Fresno PD processed and waiting return to Fresno PD.

This is a snapshot, kit submission and return is fluid and changes from day-to-day and week-to-week.

Page 2

3. Any written policies or procedures regarding CBFS's practices on the handling of sexual assault evidence kits, including testing protocols, and also including any documents defining the meaning of any terms or abbreviations used by CBFS pertaining to sexual assault evidence kits.

See attached documents for DNA casework technical procedures and District Attorney of New York (DANY) grant overview.

Sincerely,

For: S. PATTERSON
Staff Services Manager II

For KAMALA D. HARRIS
Attorney General

Enclosed: Documents

CA DOJ DANY Grant

Overview

The Office of the District Attorney, New York County (DANY) established and funded a Criminal Justice Investment Initiative (CJII) to invest in projects that will enhance public safety, develop broad crime prevention efforts and promote a fair and efficient criminal justice system. Funding awarded through this program may be used to pay for the cost of testing untested or backlogged SAKs only. Funding may not be used for related costs such as investigating and prosecuting cases, inventorying sexual assault kits (SAKs), creating data- or information-sharing systems, or onsite training.

Award to CA DOJ

The New York County District Attorney's Office (DANY) selected the California Department of Justice's Bureau of Forensic Services as an awardee of the 2015 Sexual Assault Kit Backlog Elimination Grant Program to that began on October 1, 2015. CA DOJ will receive \$1,606,239 over two years to test 2000 previously untested sexual assault kits. These are kits that meet the DANY requirements that were inventoried and are currently stored at 40 law enforcement agencies representing 16 counties. DANY had established agreements competitive rate agreements for SAK testing for initial DNA testing with two private forensic labs: Bode Cellmark Forensics and Sorenson Forensics. CA DOJ has chosen to use these vendors as not to impact current CA DOJ's DNA Casework obligations.

Purpose of DANY Grant

The purpose of this grant is to analyze the backlog of untested SAKs in the possession of LEAs who have signed letters of commitment within BFS jurisdiction.

Time frame

- The testing of all SAKs must occur prior to September 30, 2017
- Grant data will be gathered and reported until September 30, 2019

Fresno Police Department SAKs for the DANY grant-

As previously mentioned, the DANY SAKs are currently stored and the local law enforcement agencies within their property sections. Fresno Police Department has identified 561 (previously untested with DNA) SAKs. As of July 21, 2016, 197 SAKs have been processed. The remaining SAKs are awaiting shipment in batches of ~100 SAKs.

Sexual Assault Kit Eligibility-

The following SAKs are NOT eligible for testing:

- Unreported, anonymous or "Jane Doe" cases unless the victim has decided to make a police report at a later time; and
- Objective and conclusive evidence exists that no crime was committed (e.g. victim unequivocally recants all parts of the assault and/or video footage exists demonstrating there was no crime). It is expected that there will be very few cases that would meet this criteria.

The following types of SAKs are eligible for testing:

- Identity of the offender is unknown;
- Identity of the offender is not an issue (suspect known and even prosecuted);

- Status of the Statute of limitations has no bearing (yes to expired);
- Offender was convicted without DNA;
- Sexual assault kits that were analyzed but not with DNA technology;
- The issue is whether the interaction was consensual or not; and
- Investigation (and possibly witness statements) contradicts the accusation, but there is no conclusive and objective evidence that the crime did not occur.
