**SPRINGFIELD, IL 62701**  
**PH: 217-789-2216 EMAIL: [REDACTED]**

Monday, January 4, 2016

[REDACTED]

DEAR MS [REDACTED],

Thank you for writing to the City of Springfield, Illinois, with your request for information pursuant to the Illinois Freedom of Information Act, 5 ILCS 140/1 et seq.

Pursuant to the ILCS FOIA Act we are requesting the following:

1. Any documentation regarding the number of sexual assault evidence kits received by the Office of the City Clerk from the Springfield Police Department in at least the last ten (10) years, broken down by year, if documentation is readily-available further back in time, we request all such readily-available documentation;
2. Any documentation regarding the number of sexual assault evidence kits received by the Office of the City Clerk from the Springfield Police Department that have been processed by Springfield City Clerk in the last ten (10) years, broken down by year, if documentation is readily-available further back in time, we request all such readily-available documentation;
3. Any documentation regarding the number of sexual assault evidence kits received by the Office of the City Clerk from the Springfield Police Department that are unprocessed and remain in any storage facilities currently under the Springfield City Clerk's jurisdiction and control; and
4. Any written policies or procedures regarding the Springfield Police Department's practices on the handling of sexual assault evidence kits, including testing protocols, and also including any documents defining the meaning of any terms or abbreviations used by the Springfield Police Department or the Office of the City Clerk pertaining to sexual assault evidence kits.

Attached are lists, by year, of the sexual assault kits booked into the Springfield Police Department (SPD) Property and Evidence Section from 2005 through 2015. On each entry, the SPD Evidence Manager has indicated the date the kit was sent to the Illinois State Police Crime Lab for testing. She has also noted which kits were not sent for testing. Please note that the Office of the City Clerk is not part of the chain of custody for SPD evidence.

Also attached is Section 4 of SPD's Evidence Packaging, Storage and Disposal Procedures, which includes sexual assault kits in Part III (K).

Sincerely,

Donna J. Brown  
Police Department FOIA Coordinator

July 20, 2016

Re: Freedom of Information Request #4877

Dear Ms. [REDACTED]:

The following is submitted in response to your June 10, 2016 letter containing subsequent questions on the above-referenced FOIA request.

1. Kits that were collected, but the case did not meet the necessary criteria for submission, would not be sent to the lab for testing. For example, the complaint was recanted or upon investigation was determined to be unfounded. In other types of cases a kit could be collected as a contingency, but later determined not to be necessary. Another police agency might request that we collect the kit for them, but then never pick it up.
2. Other Agency – indicates that the alleged incident took place in another law enforcement jurisdiction. SPD would not be authorized to submit another agency's kit for testing.
3. Officers will complete the Illinois State Police (ISP) Crime Lab Request Form for testing of the evidence collected when appropriate.
4. Generally, it is the responsibility of the responding officer to complete the ISP Crime Lab Request Form for submission to the lab. If the request is not completed, Evidence officers would review the case and determine if the sheet should be completed and contact the officer to do so.
5. Illinois State Police Forensic Sciences Laboratory performs the testing of Sexual Assault Kits.

Sincerely,

Donna J. Brown  
SPD Records Manager  
Police FOIA Coordinator
