Dear Sir:

We represent the Joyful Heart Foundation (“Joyful Heart”) in connection with its Accountability Project and submit this letter to you on its behalf. Joyful Heart is a non-profit organization focused on preventing and remediating sexual assault, domestic violence and child abuse. As part of the Accountability Project, Joyful Heart is collecting information throughout the country concerning policies and procedures on evidence processing for the crime of rape, as well as information on the processing of rape kits each year. The ultimate goal of this initiative is to end the backlog of untested rape kits throughout the United States and to work with jurisdictions to develop and implement survivor-centered reforms. Joyful Heart is hoping to collaborate with the City Manager and the City of Long Beach Police Department (“LBPD”) as well as other local authorities in pursuit of this goal.

This letter is a request for information from Joyful Heart pursuant to the California Public Records Act, § 6250 et seq. (the “Act”). As you are aware, the Act provides that the public must have access to public records not specifically exempt from disclosure.

Joyful Heart hereby requests that the LBPD provide public records regarding each of the following:

1. Any documentation regarding the number of sexual assault evidence kits received by the LBPD from January 1, 2000 through the present, broken down by year, and, if any such documentation exists from prior to January 1, 2000, any documentation showing when maintenance of such records began;
2. Any documentation regarding the number of sexual assault evidence kits received by the LBPD which were analyzed for DNA from January 1, 2000 through the present, broken down by year, and, if any such documentation exists from prior to January 1, 2000, any documentation showing when maintenance of such records began;

3. Any documentation regarding the number of sexual assault evidence kits received by the LBPD which were not analyzed for DNA from January 1, 2000 through the present, broken down by year, and, if any such documentation exists from prior to January 1, 2000, any documentation showing when maintenance of such records began;
4. Any documentation providing the reason(s) the sexual assault evidence kits identified in (3) were not sent to a crime lab for DNA analysis, and, if any such documentation exists from prior to January 1, 2000, any documentation showing when maintenance of such records began;
5. Any documentation regarding the number of sexual assault evidence kits received by the LBPD that are unprocessed and remain in any storage facilities currently under the police department's jurisdiction and control;
6. Any documentation regarding the number of sexual assault evidence kits received by the LBPD which have been lost or destroyed from January 1, 2000, broken down by year and, if any such documentation exists from prior to January 1, 2000, any documentation showing when maintenance of such records began; and
7. Any written policies or procedures regarding the LBPD's practices on the handling of sexual assault evidence kits, including testing protocols and retention and destruction policies and also including any documents defining the meaning of any terms or abbreviations used by the LBPD pertaining to sexual assault evidence kits

Please note that **no** private information of individual suspects or victims is being requested, as we fully respect the privacy interests of those individuals. We are happy to work with you to ensure that all privacy regulations are upheld.

Dear [REDACTED]

We appreciate your patience while we gathered the information you requested. As you can imagine, gathering records that have expanded over twenty years is no easy task. With that being said, we have attached the available information. We divided the documents into two categories to expedite the completion of your request.

In 2009, the Long Beach Police Department's Sex Crimes Detail completed a Sexual Assault Kit (SAK) Project. According to our records, the involved personnel hand-counted all the SAK's in our property section at the time. The group identified the analyzed and unanalyzed kits and subsequently analyzed all kits.

Our collection of records analyzed data from 2009 to 2020. Please refer to the reports included in the file titled, 2009-2020 SART KIT PROJECT. After our review, we discovered the following information:

From 2009-2020, we identified 1,303 SAK's. We analyzed 1,170, and 133 were not analyzed.

Of the 133 unanalyzed kits, we categorized 96 as follows:

- 6 Courtesy SAK's for other law enforcement agencies
- 17 Victim and Suspect kits involved in Homicide Cases. However, no sexual assaults were suspected.
- 19 VAWA - Violence Against Women Act
- 25 Suspect SAK's
- 29 Unfounded (victim admitted no sexual assault occurred)

Of the remaining 37 unanalyzed SAK's, we identified the following categories:

- 1 City Prosecutor Reject
- 1 Victim wanted SART Destroyed
- 1 Statute of limitations expired
- 1 Adjudicated
- 4 Lack of corroboration (analyzing SAK would not prove corroboration)
- 6 Unable to locate a victim
- 8 District Attorney Reject
- 15 No Prosecution Desired

Most importantly, twenty-six unanalyzed sexual assault kits (included in the totals above) collected on or after 2016 do not meet the criteria for the examination set forth by Penal Code Section 680. We identified the following categories for these cases:

- 1 Courtesy SAK for another law enforcement agency
- 1 Suspect SAK (Victim SAK for this case was analyzed. City Prosecutor filed).
- 6 Homicide cases (No indication of a sexual assault)
- 9 VAWA - Violence Against Women Act
- 9 Unfounded - (victim admitted no sexual assault occurred)

As requested, we are also including our department policy involving the destruction of Sexual Assault Kits. Please refer to the Administrative Operations Internal Memorandums, which prohibit the destruction of SART KITS without approval from Commanding Officers. The Long Beach Police Department, Forensic Science Services Division, Administrative Personnel established this guideline in 2019 to ensure oversight in the retention of SART kits to comply with legal mandates.

If we can be of further assistance, please contact our Public Records Act Division at (562) 570-7588.

Sincerely,

Norma Carrillo
Sergeant, Sex Crimes Detail
