10

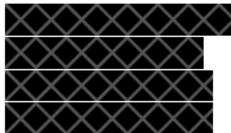

Hope all is well! We prepared the attached letters to be sent to the Massachusetts State Police Crime Lab for all of the Massachusetts jurisdictions that we sent letters to. They are all based on the same form.

Please let us know if you have any comments or questions. Once we have your approval, we can send these letters out.

Thanks and have a good weekend!

Goodwin Procter LLP

Hi [REDACTED],

Thank you so much for this. I think I would like to see the CD. Let me know if you need me to do anything on my end.

It looks like they want us to do the counting for them. Ugh. They are punishing us!

We can get on a call tomorrow or Wednesday. Fairly open. Or next week is pretty open too.

Best,

[REDACTED]

[REDACTED]

Hi [REDACTED],

Enclosed is a copy of a letter from the Massachusetts State Crime Lab in response to our request of October 30, 2019. Along with the letter, we received a CD which included data in the form of spreadsheets for some of the jurisdictions and protocol testing information.

The letter states that information is provided primarily from about 2000 for Brockton, Fall River, Haverhill, Lawrence, Lynn, Malden, New Bedford, Somerville, Waltham and Worcester, but that the "Department has not completed the spreadsheets for Cambridge, Lowell, Quincy and Springfield."

We have had a quick look at the spreadsheets but have a number of questions as to what the information in the spreadsheet actually represents, especially where the spreadsheet indicates no DNA test was performed. I enclose a spreadsheet for Somerville for your reference.

Please let us know your availability for a call and please let us know if you would like us to send you a copy of the CD, or whether we should send it to you electronically using our secure file transfer application which allows large volume of material to be transferred by email.

Best regards,

Goodwin Procter LLP

Hi [REDACTED],

Thank you so much for drafting the letter. It looks great. I understand that getting a call with them might be difficult these days, but a written response should be good enough. Please let me know if there is anything else I can provide.

All the best,

[REDACTED]

Hi [REDACTED],

[REDACTED] is my wonderful secretarial assistant. I will follow up and send your questions to the Massachusetts Crime Lab.

With regard to the phone call, I can try to call the individual that responded on behalf of the Massachusetts Crime Lab, Darina Griffin, Legal Counsel, but it might be difficult to reach her in the current environment.

Best regards,

[REDACTED]

Subject: Fwd: Response from Massachusetts State Crime Lab

Dear [REDACTED]

This is [REDACTED] at the Joyful Heart Foundation. I hope this email finds you well.

I was looking into the documents from Massachusetts State Lab and had a few questions. I am not sure if you would have the answers, or if it would be possible for you to forward them to the lab. A phone call with the contact person at the lab would also be helpful. I would appreciate your guidance.

All the best,

[REDACTED]

1. The zipped folder only has pdf documents from 11 out of 15 jurisdictions we sent FOIAs to. Could the lab send documents on the remaining four jurisdictions? (Cambridge, Lowell, Quincy, and Springfield)
2. Does the first part of the Crime Lab Case # refer to the kit collection year? For instance, was this kit (00-00486 in Worcester PD document) collected in 2000?
3. If that is the case, what year do Case Numbers such as C000219 and U000024 refer to?
4. What are the "other" and "unknown" types of cases at the end of documents on Brockton, Fall River, Haverhill, Lynn, Somerville, and Worcester?
5. New Bedford, Newton, and Waltham documents are missing the "Case Type" column. Are all the data in these three documents from "reported sexual assault cases"?
6. If "Case Number" refers to the collection year, the earliest kits in each document are from 2000, with a few exceptions from 1989 and the 1990s, whereas the latest are from 2018. Is it possible for them to send data from 1990-1999, 2019, and 2020 as of April 1st?
7. What is the difference between "Crim kit" and "DNA kit"? A lot of kits show that "Crim kit" was tested, but "DNA kit" was not. What does that mean?
8. Some kits with "Crim kit" tested do not have their "DNA kit" tested, with no explanation in the "DNA reason" column. Why would those kits not be tested? Are they backlogged? Does the lab plan on testing them anytime in the future?

9. Some kits that were not uploaded to CODIS have "Kit produced Profile not suitable/eligible for CODIS" or "Kit produced a Y-STR Profile". However, most kits not uploaded to CODIS don't have any reason. Why were those kits not uploaded to CODIS?
10. What do "Case closed - No response to state inquiry" and "Case closed - Per investigator/ADA" mean? Do they mean before the lab tested the kits, investigator or police department that sent the kit closed the case and requested the kit not to be tested?
11. What does the color code stand for? There are cells that are highlighted in red, pink, yellow, green, and orange in each document.

Re: Massachusetts Public Records Request

Dear Ms. Griffin:

Thank you for the November 22, 2019 response (“Response”) to my letters requesting information on behalf of the Joyful Heart Foundation regarding fifteen Massachusetts jurisdictions pursuant to the Massachusetts Public Records Law, M. G. L. c. 66 § 10 (the “Public Records Law”). The Response included a CD with information in the form of pdf documents. Joyful Heart requests the following additional information and clarification with regard to the information provided in the CD.

1. The CD includes documents with information relating to eleven of the fifteen jurisdictions. As previously requested, please also provide corresponding documents for the remaining four jurisdictions of Cambridge, Lowell, Quincy, and Springfield.
2. Does the first part of the Crime Lab Case # in the pdf documents refer to the kit collection year? For example, was kit 00-00486 in the Worcester pdf document collected in 2000?
3. If that is the case, what years do Case Numbers such as C000219 and U000024 refer to?
4. What are the types of cases indicated as “other” and “unknown” at the end of the pdf documents for Brockton, Fall River, Haverhill, Lynn, Somerville, and Worcester?
5. The New Bedford, Newton, and Waltham pdf documents are missing the “Case Type” column. Are all the data in these three documents from “reported sexual assault cases”?
6. If “Case Number” in the pdf documents refers to the collection year, the earliest kits in each pdf document are from 2000, with a few exceptions from 1989 and the 1990s, whereas the latest are from 2018. Please also provide the data for kits collected in 1990-1999, 2019, and 2020 as of April 1st.

Massachusetts State Police Crime Laboratory

April 17, 2020

Page 2

7. What is the difference between the “Crim kit” and “DNA kit” notation in the pdf documents? Some of the kit information in the pdf documents indicates that “Crim kit” was tested, but “DNA kit” was not. Please explain.
8. The pdf documents show that some kits with “Crim kit” tested do not have their “DNA kit” tested, with no explanation in the “DNA reason” column. Please provide the reason that those kits were not DNA tested. Is this due to a testing backlog? If this is due to a testing backlog, does the Massachusetts State Crime Laboratory plan on testing them anytime in the future?
9. The pdf documents show that some kits were not uploaded to CODIS because “Kit produced Profile not suitable/eligible for CODIS” or “Kit produced a Y-STR Profile”. However, most kits indicated in the pdf documents as not uploaded to CODIS don’t have any explanation listed in the pdf document as to why they were not uploaded to CODIS. Please explain why those kits were not uploaded to CODIS.
10. What do the notations “Case closed - No response to state inquiry” and “Case closed - Per investigator/ADA” indicate? Do these notations mean that before the Massachusetts State Crime Laboratory tested the kits, the investigator or police department that sent the kit closed the case and requested that the kit not be tested?
11. There are cells in each pdf document that are highlighted in red, pink, yellow, green, and orange. What does the color code represent?

This letter is a follow up to your response to request for information from Joyful Heart pursuant to the Massachusetts Public Records Law, M. G. L. c. 66 § 10 (the “Public Records Law”). As you are aware, the Public Records Law provides that the public must have access to public records not specifically exempt from disclosure.

We appreciate your immediate attention to this matter. We understand that the information requested in this letter may not be available within ten (10) business days and in that event, pursuant to Subsection 10(b) of the Public Records Law, we look forward to receiving a written response stating the time reasonably necessary to produce the records or information.

In addition, pursuant to Subsection 10(d) of the Public Records Law, we understand that a fee may be imposed in connection with this request. We would kindly request that you waive any such fee based on the public interest in the requested disclosure. If the fee cannot be waived, please provide an estimate of the fees for the above listed documentation prior to incurring any such fee.

Hi [REDACTED],

I just tried to call Ms. Griffin. I got her voicemail stating she was out of the office and not reachable by email or voicemail and referring callers to a Samuel Miller at 978-451-3322. I called Mr. Miller and left a voicemail stating I was following up on my inquiry to Ms. Griffin on behalf of Joyful Heart and asked him to return my call. If he doesn't call me back today I will call again tomorrow.

Best,

Thank you so much!

We are working on the list of CA cities we mentioned previously for FOIAs and of course conflict review.

Dear Mr. Miller,

I have not received a response from Ms. Griffin to my June 12, 2020 email. I called Ms. Griffin yesterday and her voicemail stated she was out of the office and did not have access to her email or phone messages, and directed callers to you for assistance. I called and left a voicemail message for you yesterday, along with my cell number.

I would appreciate hearing from you, either by email or on my cell, as soon as possible, as to when I can expect to receive the follow-up response referred to in Ms. Griffin's letter of May 4th.

Hi [REDACTED],

Unfortunately I got a bounce back stating the email to Mr. Miller was undeliverable. I called again today and actually spoke with Mr. Miller. He said Ms. Griffin was out of the office until next week due to an emergency but he was looking into this and he understood the matter was actively being worked on. I mentioned that we were waiting for over a month for a response and that Joyful Heart was planning to publish the status of the response soon, at which point he said he would try to get in touch with Ms. Griffin and would get back to me today. He also mentioned that the reason the prior email was undeliverable was because his email required an "a" between Samuel and Miller.

If I don't hear back from Mr. Miller today I will send him an email summarizing our conversation and requesting an update as to when we can expect to receive a response.

Best,

[REDACTED]

Fri, Jun 26, 2020 at 2:03 PM

Hi [REDACTED],

Just wanted to let you know that Mr. Miller called me back to let me know the process is moving along and final approval has to go through the governor's office, "and they are very busy." Mr. Miller also stated that Ms. Griffin is still out of the office but will try to continue to move things forward working remotely. Finally, Mr. Miller stated that he would contact me again no later than next Wednesday or Thursday with a status update.

If Mr. Miller does not contact me by the end of the day on Thursday I will contact him by phone and/or email.

Best regards,

[REDACTED]

Hi [REDACTED],

I just spoke with Mr. Miller. He stated that our request for information is not being ignored, and is being worked on and is progressing. Mr. Miller stated he had no information for me with respect to when we can expect to receive the information, because he did not want to give me a date and then not have the information ready by that date. I mentioned again that Joyful Heart would be publishing information on what responses had been received, and Mr. Miller stated he had made sure those working on our request knew about the planned publication. Mr. Miller stated he will call me again on Friday.

I will let you know if I hear anything further from Mr. Miller about when we can expect to receive a response to our request for information.

Regards,

[REDACTED]@joyfulheartfoundation.org>

Mon, May 18, 2020 at 9:14 AM

Hi [REDACTED],

Enclosed is a letter from the Massachusetts State Crime lab acknowledging our request and indicating that because of COVID-19, it will take additional time for a response. Unfortunately, the letter does not specify exactly how long it will take to get a response.

I will contact the Massachusetts State Crime lab and ask for an update if I do not hear back in three weeks. Please let me know if you would like me to contact the lab before that time.

Best regards,

[REDACTED]

The Commonwealth of Massachusetts

Department of State Police

CHARLES D. BAKER
GOVERNOR

May 4, 2020

Joyful Hearts Foundation
Goodwin Proctor, LLP

Dear [REDACTED]

On April 17, 2020, the Massachusetts State Police (“Department”) received your correspondence, which seeks clarification of the Departments prior response to your public records request and requests additional materials. Specifically, your request states that you are seeking additional information and explanations for the materials provided to you in the Departments November 22, 2019 response. Your current request states:

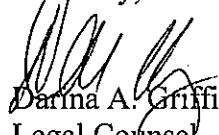

1. “The CD includes documents with information relating to eleven of the fifteen jurisdictions. As previously requested, please also provide corresponding documents for the remaining four jurisdictions of Cambridge, Lowell, Quincy, and Springfield.
2. Does the first part of the Crime Lab Case # in the pdf documents refer to the kit collection year? For example, was kit 00-00486 in the Worcester pdf document collected in 2000?
3. If that is the case, what years do Case Numbers such as C000219 and U000024 refer to?
4. What are the types of cases indicated as “other” and “unknown” at the end of the pdf documents for Brockton, Fall River, Haverhill, Lynn, Somerville, and Worcester?
5. The New Bedford, Newton, and Waltham pdf documents are missing the “Case Type” column. Are all the data in these three documents from “reported sexual assault cases”?
6. If “Case Number” in the pdf documents refers to the collection year, the earliest kits in each pdf document are from 2000, with a few exceptions from 1989 and the 1990s, whereas the latest are from 2018. Please also provide the data for kits collected in 1990-1999, 2019, and 2020 as of April 1st.

7. What is the difference between the “Crim kit” and “DNA kit” notation in the pdf documents? Some of the kit information in the pdf documents indicates that “Crim kit” was tested, but “DNA kit” was not. Please explain.
8. The pdf documents show that some kits with “Crim kit” tested do not have their “DNA kit” tested, with no explanation in the “DNA reason” column. Please provide the reason that those kits were not DNA tested. Is this due to a testing backlog? If this is due to a testing backlog, does the Massachusetts State Crime Laboratory plan on testing them anytime in the future?
9. The pdf documents show that some kits were not uploaded to CODIS because “Kit produced Profile not suitable/eligible for CODIS” or “Kit produced a Y-STR Profile”. However, most kits indicated in the pdf documents as not uploaded to CODIS don’t have any explanation listed in the pdf document as to why they were not uploaded to CODIS. Please explain why those kits were not uploaded to CODIS.
10. What do the notations “Case closed - No response to state inquiry” and “Case closed - Per investigator/ADA” indicate? Do these notations mean that before the Massachusetts State Crime Laboratory tested the kits, the investigator or police department that sent the kit closed the case and requested that the kit not be tested?
11. There are cells in each pdf document that are highlighted in red, pink, yellow, green, and orange. What does the color code represent?”

The Department is currently in the process of reviewing your request and collecting responsive documents. However, I would like to note that the response is going to take additional time due to the state of emergency and the current efforts by every agency to address the COVID-19 pandemic. Nevertheless, the Department will collect and review the available laboratory documents, identify any responsive materials and information and provide a follow-up response to you as soon as practicable. Thank you for your understanding.

If you object to this response, you may appeal to the Supervisor of Records in accordance with M.G.L. c. 66, §10(b) and 950 CMR 32.00. You may also file a civil action in accordance with M.G.L. c. 66, § 10A. Feel free to reach out at any time if you need any other information.

Sincerely,

Darina A. Griffin

Goodwin Proctor, LLP

Dear [REDACTED]

On April 17, 2020, the Massachusetts State Police (“Department”) received your correspondence, which seeks clarification of the Department’s prior response to your public records request and requests additional materials. Your initial October 30, 2019, request sought the following materials in the possession of the Department relating to fifteen (15) different municipal police departments:

1. Please provide the total number of sexual assault evidence kits received from the Brockton, Cambridge, Fall River, Haverhill, Lawrence, Lowell, Lynn, Malden, New Bedford, Newton, Quincy, Somerville, Springfield, Waltham, and Worcester Police Departments for the last thirty (30) years, broken down by year. Please also provide any readily-available documentation that reflects the total number of sexual assault evidence kits received from the Brockton, Cambridge, Fall River, Haverhill, Lawrence, Lowell, Lynn, Malden, New Bedford, Newton, Quincy, Somerville, Springfield, Waltham, and Worcester Police Departments since they began submitting such kits to the MSPCL, broken down by year of receipt, if possible.
2. Please provide the total number of sexual assault kits received from the Brockton Cambridge, Fall River, Haverhill, Lawrence, Lowell, Lynn, Malden, New

Excellence In Service Through Quality Forensic Science

Bedford, Newton, Quincy, Somerville, Springfield, Waltham, and Worcester Police Department that were analyzed for DNA in the last thirty (30) years, broken down by year. Please also provide any readily-available documentation that reflects the total number of sexual assault evidence kits received from the Brockton Cambridge, Fall River, Haverhill, Lawrence, Lowell, Lynn, Malden, New Bedford, Newton, Quincy, Somerville, Springfield, Waltham, and Worcester Police Departments since they began submitting such kits to the MSPCL that were analyzed for DNA, broken down by year of either receipt or analysis, if possible.

3. Please provide the total number of sexual assault kits received from the Brockton, Cambridge, Fall River, Haverhill, Lawrence, Lowell, Lynn, Malden, New Bedford, Newton, Quincy, Somerville, Springfield, Waltham, and Worcester Police Departments that were not analyzed in the last thirty (30) years, broken down by year. Please also provide any readily-available documentation that reflects the total number of sexual assault kits received from the Brockton, Cambridge, Fall River, Haverhill, Lawrence, Lowell, Lynn, Malden, New Bedford, Newton, Quincy, Somerville, Springfield, Waltham, and Worcester Police Departments since they began submitting such kits to the MSPCL that were not analyzed further back in time, broken down by year of receipt, if possible.
4. Please provide any documentation, should any exist, explaining why sexual assault kits received from the Brockton, Cambridge, Fall River, Haverhill, Lawrence, Lowell, Lynn, Malden, New Bedford, Newton, Quincy, Somerville, Springfield, Waltham, and Worcester Police Departments were not analyzed for DNA in the last thirty (30) years. If such documentation is readily-available for the entire period since the Brockton, Cambridge, Fall River, Haverhill, Lawrence, Lowell, Lynn, Malden, New Bedford, Newton, Quincy, Somerville, Springfield, Waltham, and Worcester Police Departments began submitting such kits to MSPCL, we request all such readily available documentation.
5. Please provide information on the number of Combined DNA Index Systems (CODIS) hits from sexual assault evidence kits received from the Brockton Cambridge, Fall River, Haverhill, Lawrence, Lowell, Lynn, Malden, New Bedford, Newton, Quincy, Somerville, Springfield, Waltham, and Worcester Police Departments for the last thirty (30) years, broken down by year. If documentation is readily-available providing the number of CODIS hits from sexual assault evidence kits received from the Brockton, Cambridge, Fall River, Haverhill, Lawrence, Lowell, Lynn, Malden, New Bedford, Newton, Quincy, Somerville, Springfield, Waltham, and Worcester Police Departments since they began submitting such kits to the MSPCL, we request that documentation as well.
6. Please provide documentation and information on the turnaround testing times for sexual assault kits received from the Brockton, Cambridge, Fall River, Haverhill, Lawrence, Lowell, Lynn, Malden, New Bedford, Newton, Quincy, Somerville, Springfield, Waltham, and Worcester Police Departments for analysis. Specifically,

Excellence In Service Through Quality Forensic Science

we seek an explanation or documentation on how long it takes, in days, to complete forensic analysis of the sexual assault evidence kits after receiving the kit from the Brockton, Cambridge, Fall River, Haverhill, Lawrence, Lowell, Lynn, Malden, New Bedford, Newton, Quincy, Somerville, Springfield, Waltham, and Worcester Police Department.

7. Please provide any policies and procedures regarding evidence handling, including, but not limited to: turnaround testing times, criteria for testing or not testing a sexual assault evidence kit, what roles determine if a kit is to be tested, and evidence disposal protocols.

Your correspondence dated April 17, 2020, refers to the Department's November 22, 2019, response and seeks additional materials and clarification. The Department considers the portion of your April 17, 2020, correspondence that seeks records a request pursuant to G.L. c. 66, §10, the Massachusetts Public Records Law. As for the remainder of your requests, although the Department considers these questions or general inquiries not subject to the public records law, the Department, in an effort to work with you, responds to your questions/inquiries below. As a reminder, the Public Records Law only applies to records that are already in existence at the time of the request. Consequently, an agency is not required by the Public Records Law to answer questions or general inquiries. Similarly, an agency is not required to create a record that it does not keep in order to respond to a request. 32 Op. Att'y Gen. 157, 165 (May 18, 1977) (custodian is not obliged to create a record in response to a request for information).

The Department responds below to each of the paragraphs in your inquiry individually as follows:

1. "The CD includes documents with information relating to eleven of the fifteen jurisdictions. As previously requested, please also provide corresponding documents for the remaining four jurisdictions of Cambridge, Lowell, Quincy, and Springfield."

When the Department originally responded to your request on November 22, 2019, the Department provided responsive documents for the Brockton, Fall River, Haverhill, Lawrence, Lynn, Malden, New Bedford, Newton, Somerville, Waltham and Worcester Police Departments. The Department created the responsive documents by reviewing the inventories provided by the departments and categorizing the information into the responsive spreadsheets provided. The work to create and complete these spreadsheets is both time and resource consuming. As such, at the time of the November response, the Department had not yet completed the review of the spreadsheets for the Cambridge, Lowell, Quincy and Springfield Police Departments. At this time, the Lowell Police Department and Cambridge Police Department spreadsheets are complete and attached. The other two Departments' spreadsheets are still in progress and are therefore not included in this response.

2. "Does the first part of the Crime Lab Case # in the pdf documents refer to the kit collection year? For example, was kit 00-00486 in the Worcester pdf document collected in 2000?"

The first two numerical digits of a laboratory case number indicate the year the item of evidence was submitted to the laboratory.

3. "If that is the case, what years do Case Numbers such as C000219 and U000024 refer to?"

The first two numerical digits of a laboratory case number, even when they follow a letter, indicate the year the item of evidence was submitted to the laboratory.

4. "What are the types of cases indicated as "other" and "unknown" at the end of the pdf documents for Brockton, Fall River, Haverhill, Lynn, Somerville, and Worcester?"

In addition to reported and unreported sexual assaults, Sexual Assault Evidence Collection Kits may be gathered in other types of cases.

5. "The New Bedford, Newton, and Waltham pdf documents are missing the "Case Type" column. Are all the data in these three documents from "reported sexual assault cases"?"

The Department inadvertently omitted those columns from the spreadsheets that were provided. The enclosed disc contains a redacted copy of those spreadsheets, which includes that information for those three Police Departments.

6. "If "Case Number" in the pdf documents refers to the collection year, the earliest kits in each pdf document are from 2000, with a few exceptions from 1989 and the 1990s, whereas the latest are from 2018. Please also provide the data for kits collected in 1990-1999, 2019, and 2020 as of April 1st."

As noted in the Department's November 22, 2019, response, the information you were seeking in your initial request was not readily available in a single document dating back 30 years and categorized by year. The Department provided you with the aforementioned spreadsheets that the laboratory generated for its own internal purposes. Notably, these are reference documents used by laboratory staff. These spreadsheets include some information, but are not all inclusive of cases prior to 2000. Additionally, these reference documents were initiated in 2018 to provide specific information for the laboratory and represent a snapshot of the information available at that point in time. Information for cases submitted subsequently is not included in these spreadsheets and would require the laboratory to create additional documents.

7. "What is the difference between the "Crim kit" and "DNA kit" notation in the pdf documents? Some of the kit information in the pdf documents indicates that "Crim kit" was tested, but "DNA kit" was not. Please explain."

Excellence In Service Through Quality Forensic Science

A “Crim kit” refers to the criminalistics examination of a sexual assault kit by the laboratory’s criminalistics unit and “DNA kit” refers to the DNA analysis of sexual assault kit items by the laboratory’s DNA unit.”

8. “The pdf documents show that some kits with “Crim kit” tested do not have their “DNA kit” tested, with no explanation in the “DNA reason” column. Please provide the reason that those kits were not DNA tested. Is this due to a testing backlog? If this is due to a testing backlog, does the Massachusetts State Crime Laboratory plan on testing them anytime in the future?”

There are a host of potential reasons that DNA testing may not have been completed in any given case or investigation, including the nature of the evidence, the absence of testable material, and the determinations made by law enforcement and prosecuting agencies. If the reason is not noted on the spreadsheets that were provided to you, the only way to gather this information is by pulling each of those cases and reviewing the individual case file. Notwithstanding, the Department is reviewing cases where DNA testing was not performed; in consultation with the investigating agencies and prosecuting offices so that determinations can then be made as to what items may benefit from further testing. Kits did not and do not go untested because of lab capacity.

9. “The pdf documents show that some kits were not uploaded to CODIS because “Kit produced Profile not suitable/eligible for CODIS” or “Kit produced a Y-STR Profile”. However, most kits indicated in the pdf documents as not uploaded to CODIS don’t have any explanation listed in the pdf document as to why they were not uploaded to CODIS. Please explain why those kits were not uploaded to CODIS.”

Generally speaking, MSPCL uploads every eligible profile to CODIS. If the kit cannot be tested or if testing does not yield an eligible profile, then it cannot be uploaded to CODIS. If the reason is not noted on the spreadsheets that were provided to you, the only way to gather this information is by pulling each of those cases and reviewing the individual case file.

10. “What do the notations “Case closed - No response to state inquiry” and “Case closed - Per investigator/ADA” indicate? Do these notations mean that before the Massachusetts State Crime Laboratory tested the kits, the investigator or police department that sent the kit closed the case and requested that the kit not be tested?”

At the time these documents were created, and consistent with its mission to assist in the accurate investigation of criminal conduct, the laboratory relied upon information from police and prosecutors when assessing any form of evidence for DNA testing. The former notation indicates that the case was closed because the laboratory did not receive from the investigating agency or prosecutor a response to the laboratory’s inquiry relative to the status of the case and what/if testing was needed. The latter notation indicates that the case is closed based on information provided by the

investigating agency or prosecutor. As you are aware, under M.G.L. c. 41, § 97B½, the laboratory currently tests all kits it receives.

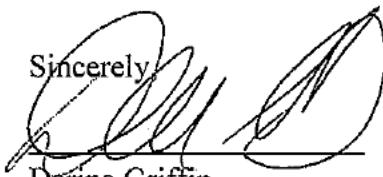

11. "There are cells in each pdf document that are highlighted in red, pink, yellow, green, and orange. What does the color code represent?"

Although colors appear on the spreadsheets, there is no color coding system.

Please note that the additional materials being provided have been redacted to remove all material that is subject to the exemptions explicitly cited in the Public Records Law. G.L. c.66, §10; G.L. c. 4, §7 (26). Pursuant to the law, the Department has withheld materials that are exempted from disclosure by necessary implication of a statute pursuant to G.L. c. 4, § 7 (26)(a), as well as information that falls within the investigatory exemption of G.L. c. 4, § 7 (26)(f), privacy exemption pursuant to G.L. c. 4, § 7 (26)(c), and medical exemption pursuant to G.L. c. 4, § 7 (26)(c). The Department has specifically redacted the information in the column entitled "Notes" as it contained medical content, private materials such as references to private and sexual concepts and parts of the anatomy, and information that is protected by statute, such as DNA information, information related to a juvenile and Criminal Offender Record Information. The Department has also removed the information in the column for the Department Case Number and the column for the Kit Number columns from the spreadsheet to maintain privacy of the victims in the cases.

If you object to this response, you may appeal to the Supervisor of Records in accordance with M.G.L. c. 66, §10(b) and 950 CMR 32.00. You may also file a civil action in accordance with M.G.L. c. 66, § 10A.

Feel free to reach out at any time if you need any other information.

Sincerely,

Darina Griffin

It looks like that is the case. In some cases the spreadsheets note that the determination not to test DNA was made by the investigator/ADA who declined DNA testing or "Case Closed-No request for testing was received." There is no explanation as to why the tests were not performed except the paragraph in their letter response (reproduced below) which states "the Department is reviewing cases where DNA testing was not performed; in consultation with the investigating agencies and prosecuting offices so that determinations can then be made as to what items may benefit from further testing. Kits did not and do not go untested because of lab capacity."

There are a host of potential reasons that DNA testing may not have been completed in any given case or investigation, including the nature of the evidence, the absence of testable material, and the determinations made by law enforcement and prosecuting agencies. If the reason is not noted on the spreadsheets that were provided to you, the only way to gather this information is by pulling each of those cases and reviewing the individual case file. Notwithstanding, the Department is reviewing cases where DNA testing was not performed; in consultation with the investigating agencies and prosecuting offices so that determinations can then be made as to what items may benefit from further testing. Kits did not and do not go untested because of lab capacity.
