

December 15, 2020

**BY FEDERAL EXPRESS AND ELECTRONIC MAIL**

Chief David A Livingstone  
Simi Valley Police Department  

Dear Chief Livingstone:

We represent the Joyful Heart Foundation (“Joyful Heart”) in connection with its Accountability Project and submit this letter to you on its behalf. Joyful Heart is a non-profit organization focused on preventing and remediating sexual assault, domestic violence and child abuse. As part of the Accountability Project, Joyful Heart is collecting information throughout the country concerning policies and procedures on evidence processing for the crime of rape, as well as information on the processing of rape kits each year. The ultimate goal of this initiative is to end the backlog of untested rape kits throughout the United States and to work with jurisdictions to develop and implement survivor-centered reforms. Joyful Heart is hoping to collaborate with Simi Valley Police Department (“SVPD”) as well as other local authorities in pursuit of this goal.

This letter is a request for information from Joyful Heart pursuant to the California Public Records Act, § 6250 et seq. (the “Act”). As you are aware, the Act provides that the public must have access to public records not specifically exempt from disclosure.

Joyful Heart hereby requests that the SVPD provide public records regarding each of the following:

1. Any documentation regarding the number of sexual assault evidence kits received by the SVPD from January 1, 2000 through the present, broken down by year, and, if any such documentation exists from prior to January 1, 2000, any documentation showing when maintenance of such records began;
2. Any documentation regarding the number of sexual assault evidence kits received by the SVPD which were analyzed for DNA from January 1, 2000 through the present, broken down by year, and, if any such documentation exists from prior to January 1, 2000, any documentation showing when maintenance of such records began;

Chief David A. Livingstone

December 15, 2020

Page 2

3. Any documentation regarding the number of sexual assault evidence kits received by the SVPD which were not analyzed for DNA from January 1, 2000 through the present, broken down by year, and, if any such documentation exists from prior to January 1, 2000, any documentation showing when maintenance of such records began;
4. Any documentation providing the reason(s) the sexual assault evidence kits identified in (3) were not sent to a crime lab for DNA analysis, and, if any such documentation exists from prior to January 1, 2000, any documentation showing when maintenance of such records;
5. Any documentation regarding the number of sexual assault evidence kits received by the SVPD that are unprocessed and remain in any storage facilities currently under the police department's jurisdiction and control;
6. Any documentation regarding the number of sexual assault evidence kits received by the SVPD which have been lost or destroyed from January 1, 2000, broken down by year and, if any such documentation exists from prior to January 1, 2000, any documentation showing when maintenance of such records began; and
7. Any written policies or procedures regarding the SVPD's practices on the handling of sexual assault evidence kits, including testing protocols and retention and destruction policies and also including any documents defining the meaning of any terms or abbreviations used by the SVPD pertaining to sexual assault evidence kits

Please note that *no* private information of individual suspects or victims is being requested, as we fully respect the privacy interests of those individuals. We are happy to work with you to ensure that all privacy regulations are upheld.

Joyful Heart also requests that, if you are not the correct contact for this request, you identify a specific individual with whom it can communicate regarding this request.

We appreciate your immediate attention to this matter. In accordance with Section 6253(c) of the Act, we expect to receive a determination as to whether this request is for disclosable public records in the SVPD or the City Clerk's possession within ten (10) days of your receipt of this request. We understand that an additional fourteen (14) day period may be required to respond to this request, in which case we expect to receive notice of such extension within the 10-day period. In accordance with Section 6253(c), once the determination has been made, we also look forward to receiving an estimated date and time when the records will be made available. In any

Chief David A. Livingstone  
December 15, 2020  
Page 3

event, we expect the SVPD to identify a relevant point of contact, if it is someone other than yourself, as requested above within the statutory ten (10) day period.

In addition, pursuant to Section 6253(b) of the Act, we understand that fees covering direct costs of Duplication may be imposed in connection with this request. We would kindly request that you provide an estimate of the fees for the above listed documentation prior to incurring any such fee.

If you have any questions, please do not hesitate to contact me at [REDACTED]

Sincerely,  
[REDACTED]

**Categories:** Public Records Request

Thank you for your email enclosing SAFE T Kit Tracking information and Evidence Continuity information. Upon review of the information, we have some follow up questions regarding this information.

The SAFE T Kit information indicates that 24 sexual assault evidence kits were submitted to the lab for testing, but only 22 sexual assault evidence kits were actually received by the lab. Please explain why two of the sexual assault evidence kits were never received for testing by the lab, including what actually happened to those two kits.

The Evidence Continuity information indicates 99 sexual assault evidence kits were collected between 2015-2021, and 69 sexual assault evidence kits were collected prior to 2015, for a total of 168 kits. However, the SAFE T Kit information reports only 24 kits were submitted for testing to a lab, and only 22 kits received by the lab, for the incident time period date between 1/1/2015 and 1/5/2021.

Please explain the discrepancy in numbers between the number of kits tested, 22, and the number of kits collected, 168. Were the 146 kits (168 minus 22) not accounted for submitted for testing? If not, please explain. If the 148 kits were submitted for testing/tested why is that not indicated in the SAFE T Kit information?

Finally, please provide any records regarding lost or destroyed sexual assault evidence kits.

Sincerely,

[REDACTED]

Good afternoon,

The City of Simi Valley City Clerk's Office is in receipt of your California Public Records Act (CPRA) request dated December 16, 2020 seeking information on sexual assault evidence kits received from 01/01/2000 to present. The responsive records are attached as verified by the Police Department. The City Clerk's Office will consider your Public Records Act request closed at this time. Should you have any questions, please feel free to contact the City Clerk's Office at [REDACTED]

Respectfully,

Tamara Cusano  
Recording Secretary  
City Clerk's Office

Good afternoon [REDACTED]

The City Clerk's Office is in receipt of your Public Records Act request dated May 12, 2021, seeking additional information on sexual assault evidence kits received. The City Attorney's Office reviewed your request against the provisions of the California Public Records Act (CPRA) Government Code (GC) §6250, et seq., and has determined that the information is exempt from disclosure pursuant to Government Code Sec. 6254(f), Haynie v. Superior Court (2001) 26 Cal.4th 1061, and Government Code Sec. 6255. A determination as to legal validity of these exemptions was rendered by Assistant City Attorney David Caceres.

The City Clerk's Office will consider your Public Records Act request closed at this time. Should you have any questions, please feel free to Contact the City Clerk's Office at [REDACTED]

Respectfully,

Tamara Cusano

Mon, Aug 2, 2021 at 3:32 PM

Hi [REDACTED]

Please see the response I received from Mr. Caceres. This begs the question, if Simi Valley has not reviewed their records for this information, then how does Simi Valley know that any of the list of reasons in the May 20<sup>th</sup> email apply to the kits that were not tested. It appears that Simi Valley is not willing to look for the information, which is perplexing in view of our request for the approximate cost to us for sharing that information. This is particularly disappointing in view of slide 30 of Public Records Act Training which states "Agency must make reasonable efforts to locate requested records. At a minimum, such efforts should include : -consulting record indexes – consulting knowledgeable people-looking in logical places," and slide 33 which states "In reality, the agency may need to: -locate the requested records -gather multiple records for inspection -redact exempt information prior to inspection."

Regards,

[REDACTED]

[REDACTED]

Thank you kindly for your email.

Per your further inquiry, the City can only provide to you those records that it currently has in its possession at the time of the request. The City is not required to produce records that may be created in the future. Also, the City is not required to provide requested information in a format that the City does not use. Here the City does not have any such record or use a format that provides or compiles the "statistical information for a breakdown of how many of the kits were untested with respect to each of the reasons listed in your email of May 20, 2021."

In the continued spirit of cooperation, both SVPD Commander Dungan and I are both available to further discuss this matter with you. Just please let me know if you would like to do so.

Sincerely,

David

**Subject:** RE: Public Records Request - [REDACTED] - Goodwin Law - May 2021

Dear Mr. Caceres,

According to the Office of the California Attorney General, "Agencies should provide a sufficient explanation of the reasons for withholding records so that the public can decide whether to challenge the agency's withholding." See Public Records Act Training, Slide 47, available at <https://oag.ca.gov/sites/all/files/agweb/pdfs/publications/prs.pdf> on the California Attorney General's website <https://oag.ca.gov/consumers/general/prs>.

Please provide a sufficient explanation of the reasons for withholding the requested statistical information for a breakdown of how many of the kits were untested with respect to each of the reasons listed in your email of May 20, 2021. In particular, please provide a sufficient explanation for withholding the requested statistical information even though it does not require any information from investigatory files of individuals which would identify a sexual assault victim or perpetrator or which would disclose any confidential information is exempt under California Gov't Code Section 6254(f), the *Haynie v. Superior* Court case, and Gov't Code Section 6255.

I look forward to receiving your response.

Sincerely,

[REDACTED]

---

**Subject:** RE: Public Records Request - [REDACTED] - Goodwin Law - May 2021

Dear Mr. Caceres,

It is my understanding that the City of Simi Valley collected 168 sexual assault kits until today (69 between 2000-2015, and 99 between 2015-2021). However, only 24 were submitted to the lab. Your email provides a list of reasons the remaining 144 might be untested. Can you or Commander Jones please provide a breakdown of how many of the kits were untested with respect to each of the reasons listed in your email, and the approximate cost for collecting this information?

Sincerely,

[REDACTED]

**Subject:** Public Records Request - [REDACTED] - Goodwin Law - May 2021

[REDACTED]

Thank you again for your letter and for the thoughtful analysis. If I may, please let explain why the *Haynie v. Superior Court* case and *Gov't Code Sec. 6254(f)* are still applicable to your most recent *California Public Records Act* ("PRA") request.

I have been advised by our police department that all of the "sexual assault evidence kits" ("kits") pertinent to your PRA request and submitted to the Ventura County Crime Laboratory ("VCCL") have been accounted for. But instances exist where kits were not submitted to the VCCL, such as (but not limited to) when an assailant is already known to the Simi Valley Police Department ("SVPD"), when the alleged victim has ceased to cooperate with an open or pending

investigation, when the matter has been deemed by SVPD to be of a "consensual encounter" nature, when the alleged victim has recanted his/her previously provided narrative, or when the evidence in support of an allegation does not meet the "beyond all reasonable doubt" criminal filing or jury standard. And so the only way to know "what happened" to any kits not provided to the VCCL, SVPD would have to locate the initial investigating report, supplemental report, or any other follow reports drafted by "investigative bureau" personnel. But without a case number, this would be impossible to do. But even if a case number were received or found, as you ably point out, such information would be exempt from release pursuant to the authority you set forth in your May 18, 2021, letter to me.

In the spirit of cooperation, both SVPD Commander Roy Jones and I are both available to further discuss this matter with you. Just please let me know if you would like to do.

Kind regards,

David

P.S. It is my understanding that you have in fact already received various PRA responsive records from the City of Simi Valley. If this is incorrect, please let me know.

Good afternoon [REDACTED]

The City Clerk's Office is in receipt of your Public Records Act request dated May 12, 2021, seeking additional information on sexual assault evidence kits received.

The City Attorney's Office reviewed your request against the provisions of the California Public Records Act (CPRA) Government Code (GC) §6250, et seq., and has determined that the information is exempt from disclosure pursuant to Government Code Sec. 6254(f), Haynie v. Superior Court (2001) 26 Cal.4th 1061, and Government Code Sec. 6255. A determination as to legal validity of these exemptions was rendered by Assistant City Attorney David Caceres.

The City Clerk's Office will consider your Public Records Act request closed at this time. Should you have any questions, please feel free to Contact the City Clerk's Office at [REDACTED]

Respectfully,

Tamara Cusano  
Recording Secretary  
City Clerk's Office  
City of Simi Valley

Fri, Aug 20, 2021 at 4:10 PM

Hi [REDACTED]

Thank you for your email and the update. I agree that Simi Valley PD is not willing to look for the information and provide a breakdown of reasons why 144 kits were not tested.

What do you suggest at this time? Is there anyone else in the jurisdiction we can reach out to, or should we close Simi Valley, saying they only tested 24 kits out of 168 without providing a breakdown of reasons?

Kindly,

[Redacted]

Hi [Redacted]

Apparently, the California Attorney General provides a report each year to the legislature regarding untested kits (copy enclosed). I will follow up with the Attorney General's office to ask if there is data available and for what time periods, for specific jurisdictions such as Simi Valley and Vallejo. If this information has been collected and provided to the Attorney General by Simi Valley, it is unclear as to why Simi Valley has not provided us with this information.

Regards,

[Redacted]

[Redacted]@goodwinlaw.com>

Wed, Aug 25, 2021 at 10:27 AM

Hi [Redacted]

I believe the report was written after a 2018 bill, and was a one-time inventory of untested kits. In the report, only 149 law enforcement agencies and crime labs out of 708 submitted data. It would be great if the AG's office can provide more information about why Simi Valley and Vallejo have not participated in the inventory, and failed to provide information to our FOIA requests. Similarly, we still have not received sufficient data from Concord, Fullerton, Garden Grove, Glendale, Long Beach, Orange, Salinas, and Santa Monica, and have received only partial information from Hayward despite many follow ups. I wonder if the inventory was not mandatory, if there were no consequences to nonparticipation, or if the inventory was not communicated well with the jurisdictions.

Kindly,

**VIA EMAIL AND FEDERAL EXPRESS**

David L. Caceres  
Assistant City Attorney, City of Simi Valley  
City Attorney's Office

[REDACTED]

**Re: Public Records Request**

Dear Mr. Caceres:

We represent the Joyful Heart Foundation (“Joyful Heart”) in connection with its Accountability project. On December 15, 2020, we submitted a public records request (copy enclosed), pursuant to California Public Records Act § 6250 et seq. (“the Act”), to obtain information and statistics regarding the backlog of untested sexual assault kits in possession of the Simi Valley Police Department (“SVPD”). After receiving a response from Tamara Cusano at the City Clerk’s office, on May 12, 2021, we submitted a follow up request (by email) that sought clarification from the SVPD (copy enclosed). On May 13, 2021 we received a response indicating that the City Attorney’s Office has determined “that the [requested] information is exempt from disclosure pursuant to Government Code Sec. 6254(f), *Haynie v. Superior Court* (2001) 26 Cal.4th 1061, and Government Code Sec. 6255.” As explained below, *Haynie* does not exempt the types of statistical information requested in the May 12, 2021 e-mail, in that the email did not request any information from investigatory files of individuals which would identify a sexual assault victim or perpetrator or which would disclose any confidential information.

In *Haynie v. Superior Court* (2001) 26 Cal.4th 1061, the records request sought disclosure of information relating to the “decision to stop *Haynie* and the stop itself” and “was for the purpose of discovering whether a violation of law had occurred.” *Haynie*, 26 Cal.4th at 1071. *Haynie* relates to an exemption from disclosing investigatory files of individuals, not police statistics. Indeed, *Haynie* recognized that in lieu of disclosing exempted records, the Act requires disclosure of information derived therefrom, citing *Williams v. Superior Court (Freedom Newspapers, Inc.)* (1993) 5 Cal. 4th 341, 353, which states: “[T]he Legislature, as already mentioned, adopted a series of amendments that required the disclosure of information derived from the records while, in most cases, preserving the exemption for the records themselves.” See also *Williams*, 5 Cal. 4th at 361 (“The state Legislature, in contrast, has limited the CPRA’s [the Act’s] exemption for law enforcement investigatory files (§ 6254,

David L. Caceres  
May 18, 2021  
Page 2

subd. (f)) by requiring agencies to disclose specific information derived from the materials in investigatory files rather than the materials, themselves.”)

The May 12, 2021 email requests compilations or summaries of information in investigatory files, such as police statistics, not information from an investigatory file that would identify a sexual assault victim or perpetrator or disclose confidential information. The requested compilations or summaries can be derived from the materials in the investigatory files without disclosing the investigatory files themselves. Therefore, under *Haynie* and *Williams*, the compilations or summaries requested in the May 12, 2021 email are not exempt from disclosure and are precisely the types of information that the State Legislature contemplated providing.

In view of the above, we reiterate our request for the information sought in our May 12, 2021 email. The Act provides that the public must have access to public records not specifically exempt from disclosure. As explained above, the information requested in the May 12, 2021 email is not exempt from public disclosure. Government Code § 6524(f) specifically exempts investigatory files of individuals, not the requested police statistics, such as the number of rape kits collected and tested, which is required to be disclosed because it is information that can be derived from investigatory files without disclosing the investigatory files themselves. Accordingly, Government Code § 6524(f) does not apply to the public records requested in our May 12, 2021 follow-up email.

Despite multiple attempts to contact the SVPD, over *five months* have passed since our December 15, 2021 letter and we still have not received the requested information. We request that the City of Simi Valley immediately provide the information requested in our follow-up email of May 12, 2021. Please let us know when the City of Simi Valley will provide the requested information.

We would appreciate your *immediate attention* to this matter. If you have any questions, please do not hesitate to contact me at [REDACTED]

Sincerely,

[REDACTED]

[REDACTED]

Encl.

## Sexual Assault Investigations

### 601.1 PURPOSE AND SCOPE

The purpose of this policy is to establish guidelines for the investigation of sexual assaults. These guidelines will address some of the unique aspects of such cases and the effects that these crimes have on the victims.

Mandatory notifications requirements are addressed in the Child Abuse and Adult Abuse policies.

#### 601.1.1 DEFINITIONS

Definitions related to this policy include:

**Sexual assault** - Any crime or attempted crime of a sexual nature, to include but not limited to offenses defined in Penal Code § 243.4, Penal Code § 261 et seq., and Penal Code § 285 et seq.

**Sexual Assault Response Team (SART)** - A multidisciplinary team generally comprised of advocates; law enforcement officers; forensic medical examiners, including sexual assault forensic examiners (SAFEs) or sexual assault nurse examiners (SANEs) if possible; forensic laboratory personnel; and prosecutors. The team is designed to coordinate a broad response to sexual assault victims.

### 601.2 POLICY

It is the policy of the Simi Valley Police Department that its members, when responding to reports of sexual assaults, will strive to minimize the trauma experienced by the victims, and will aggressively investigate sexual assaults, pursue expeditious apprehension and conviction of perpetrators, and protect the safety of the victims and the community.

### 601.3 QUALIFIED INVESTIGATORS

Qualified investigators should be available for assignment of sexual assault investigations. These investigators should:

- (a) Have specialized training in, and be familiar with, interview techniques and the medical and legal issues that are specific to sexual assault investigations.
- (b) Conduct follow-up interviews and investigation.
- (c) Present appropriate cases of alleged sexual assault to the prosecutor for review.
- (d) Coordinate with other enforcement agencies, social service agencies and medical personnel as needed.
- (e) Provide referrals to therapy services, victim advocates and support for the victim.
- (f) Participate in or coordinate with the SART.

### *Sexual Assault Investigations*

---

#### **601.4 REPORTING**

In all reported or suspected cases of sexual assault, a report should be written and assigned for follow-up investigation. This includes incidents in which the allegations appear unfounded or unsubstantiated.

#### **601.5 RELEASING INFORMATION TO THE PUBLIC**

In cases where the perpetrator is not known to the victim, and especially if there are multiple crimes where more than one appear to be related, consideration should be given to releasing information to the public whenever there is a reasonable likelihood that doing so may result in developing helpful investigative leads. The Detective Bureau supervisor should weigh the risk of alerting the suspect to the investigation with the need to protect the victim and the public, and to prevent more crimes.

#### **601.6 TRAINING**

Subject to available resources, periodic training will be provided to:

- (a) Members who are first responders. Training should include:
  - 1. Initial response to sexual assaults.
  - 2. Legal issues.
  - 3. Victim advocacy.
  - 4. Victim's response to trauma.
- (b) Qualified investigators who should receive advanced training on additional topics. Advanced training should include:
  - 1. Interviewing sexual assault victims.
  - 2. SART.
  - 3. Medical and legal aspects of sexual assault investigations.
  - 4. Serial crimes investigations.
  - 5. Use of community and other federal and state investigative resources, such as the Violent Criminal Apprehension Program (ViCAP).
  - 6. Techniques for communicating with victims to minimize trauma.

#### **601.7 VICTIM INTERVIEWS**

The primary considerations in sexual assault investigations, which begin with the initial call to the Communications Center, should be the health and safety of the victim, the preservation of evidence, and preliminary interviews to determine if a crime has been committed and to attempt to identify the suspect.

Whenever possible, a member of SART should be included in the initial victim interviews. An in-depth follow-up interview should not be conducted until after the medical and forensic examinations are completed and the personal needs of the victim have been met (e.g., change

# Simi Valley Police Department

## POLICY MANUAL

### *Sexual Assault Investigations*

---

of clothes, bathing). The follow-up interview may be delayed to the following day based upon the circumstances. Whenever practicable, the follow-up interview should be conducted by a qualified investigator.

No opinion of whether the case is unfounded shall be included in the report.

Victims shall not be asked or required to take a polygraph examination (34 USC § 10451; Penal Code § 637.4).

Victims should be apprised of applicable victim's rights provisions, as outlined in the Victim and Witness Assistance Policy.

#### 601.7.1 VICTIM RIGHTS

Whenever there is an alleged sexual assault, the assigned officer shall accomplish the following:

- (a) Advise the victim in writing of the right to have a victim advocate and a support person of the victim's choosing present at any interview or contact by law enforcement, any other rights of a sexual assault victim pursuant to Penal Code § 680.2, and the right to have a person of the same or opposite gender present in the room during any interview with a law enforcement official unless no such person is reasonably available (Penal Code § 679.04).
- (b) If the victim is transported to a hospital for any medical evidentiary or physical examination, the officer shall immediately cause the local rape victim counseling center to be notified (Penal Code § 264.2).
  1. The officer shall not discourage a victim from receiving a medical evidentiary or physical examination (Penal Code § 679.04).
  2. A support person may be excluded from the examination by the officer or the medical provider if his/her presence would be detrimental to the purpose of the examination (Penal Code § 264.2).

#### 601.7.2 VICTIM CONFIDENTIALITY

Officers investigating or receiving a report of an alleged sex offense shall inform the victim, or the victim's parent or guardian if the victim is a minor, that his/her name will become a matter of public record unless the victim requests that his/her name not be made public. The reporting officer shall document in his/her report that the victim was properly informed and shall include any related response made by the victim, or if a minor, any response made by the victim's parent or guardian (Penal Code § 293).

Except as authorized by law, members of this department shall not publicly disclose the name of any victim of a sex crime who has exercised his/her right to confidentiality (Penal Code § 293).

#### **601.8 COLLECTION AND TESTING OF BIOLOGICAL EVIDENCE**

Whenever possible, a SART member should be involved in the collection of forensic evidence from the victim.

When the facts of the case indicate that collection of biological evidence is warranted, it should be collected regardless of how much time has elapsed since the reported assault.

### *Sexual Assault Investigations*

---

If a drug-facilitated sexual assault is suspected, urine and blood samples should be collected from the victim as soon as practicable.

Subject to requirements set forth in this policy, biological evidence from all sexual assault cases, including cases where the suspect is known by the victim, should be submitted for testing.

Victims who choose not to assist with an investigation, do not desire that the matter be investigated, or wish to remain anonymous may still consent to the collection of evidence under their control. In these circumstances, the evidence should be collected and stored appropriately.

#### 601.8.1 COLLECTION AND TESTING REQUIREMENTS

Members investigating a sexual assault offense should take every reasonable step to ensure that DNA testing of such evidence is performed in a timely manner and within the time periods prescribed by Penal Code § 803(g). Generally, SAFE kits should be submitted to the crime lab within 20 days after being booked into evidence (Penal Code § 680).

In order to maximize the effectiveness of such testing and identify the perpetrator of any sexual assault, the assigned the Crime Scene Investigator shall ensure that an information profile for the SAFE kit evidence has been created in the California Department of Justice (DOJ) SAFE-T database within 120 days of collection and should indicate whether the kit was sent to the Ventura County Sheriff Forensic Lab for testing, preservation, or the reason why the kit was not being tested by the Lab. It is the responsibility of the VSO Forensic Lab to ensure that the results of any test(s) have been entered into and checked against both the DOJ Cal-DNA database and the Combined DNA Index System (CODIS) (Penal Code § 680.3).

It is the responsibility of the VSO Forensic Lab to handle all updates to the SAFE-T database due to delays in testing for the 120 day requirement (Penal Code § 630.3).

If, for any reason, DNA evidence in a sexual assault case in which the identity of the perpetrator is in issue and is not going to be analyzed within 18 months of the crime, the Crime Scene Investigator shall notify the victim of such fact in writing no less than 60 days prior to the expiration of the 18-month period (Penal Code § 680(d)).

Additional guidance regarding evidence retention and destruction is found in the Property and Evidence Policy.

#### 601.8.2 DNA TEST RESULTS

A SART member should be consulted regarding the best way to deliver biological testing results to a victim so as to minimize victim trauma, especially in cases where there has been a significant delay in getting biological testing results (e.g., delays in testing the evidence or delayed DNA databank hits). Members should make reasonable efforts to assist the victim by providing available information on local assistance programs and organizations as provided in the Victim and Witness Assistance Policy.

- (a) Upon receipt of a written request from a sexual assault victim or the victim's authorized designee, members investigating sexual assault cases shall inform the victim of the status of the DNA testing of any evidence from the victim's case (Penal Code § 680).

# Simi Valley Police Department

## POLICY MANUAL

### *Sexual Assault Investigations*

---

1. Although such information may be communicated orally, the assigned officer should thereafter follow-up with and retain a copy of confirmation by either written or electronic mail.
  2. Absent a written request, no member of this department is required to, but may, communicate with the victim or the victim's authorized designee regarding the status of any DNA testing.
- (b) Subject to the commitment of sufficient resources to respond to requests for information, sexual assault victims shall further have the following rights (Penal Code § 680):
1. To be informed if a DNA profile of the assailant was obtained from the testing of the SAFE kit or other crime scene evidence from their case.
  2. To be informed if there is a match between the DNA profile of the assailant developed from the evidence and a DNA profile contained in the DOJ Convicted Offender DNA Database, providing that disclosure would not impede or compromise an ongoing investigation.
  3. To be informed if the DNA profile of the assailant developed from the evidence has been entered into the DOJ Databank of case evidence.
- (c) Provided that the sexual assault victim or the victim's authorized designee has kept the assigned officer informed with regard to current address, telephone number, and email address (if available), any victim or the victim's authorized designee shall, upon request, be advised of any known significant changes regarding the victim's case (Penal Code § 680).
1. Although such information may be communicated orally, the assigned officer should thereafter follow-up with and retain a copy of confirmation by either written or electronic mail.
  2. No officer shall be required or expected to release any information which might impede or compromise any ongoing investigation.

#### **601.9 DISPOSITION OF CASES**

If the assigned investigator has reason to believe the case is without merit, the case may be classified as unfounded only upon review and approval of the Detective Bureau supervisor.

Classification of a sexual assault case as unfounded requires the Detective Bureau supervisor to determine that the facts have significant irregularities with reported information and that the incident could not have happened as it was reported. When a victim has recanted his/her original statement, there must be corroborating evidence that the allegations were false or baseless (i.e., no crime occurred) before the case should be determined as unfounded.

#### **601.10 CASE REVIEW**

The Detective Bureau supervisor should ensure case dispositions are reviewed on a periodic basis, at least annually, using an identified group that is independent of the investigation process. The reviews should include an analysis of:

# Simi Valley Police Department

## POLICY MANUAL

### *Sexual Assault Investigations*

---

- Case dispositions.
- Decisions to collect biological evidence.
- Submissions of biological evidence for lab testing.

The SART and/or victim advocates should be considered for involvement in this audit. Summary reports on these reviews should be forwarded through the chain of command to the Chief of Police.
